---

Objective

A highly motivated software engineer with 3 years of experience in full-stack development, seeking to leverage my technical skills in a dynamic team environment to contribute to innovative projects.

Education

Bachelor of Science in Computer Science

University of Anytown | Graduated: May 2021

Technical Skills

- Programming Languages: Python, JavaScript, C++

- Frameworks: React, Node.js, Django

- Databases: MySQL, PostgreSQL, MongoDB

- Tools: Git, Docker, Kubernetes

Work Experience

Software Engineer

Tech Innovations Inc. | June 2021 – Present

- Developed and maintained RESTful APIs using Node.js and Express, improving system performance by 20%.

- Led the integration of new front-end features using React, boosting user engagement by 30%.

- Worked with a team to migrate legacy systems to cloud infrastructure, reducing operational costs by 15%.

Software Development Intern

Web Solutions Co. | June 2020 – August 2020

- Assisted in developing e-commerce features for client websites using Django.

- Wrote and optimized SQL queries, improving database response times by 10%.

Projects

Real-Time Chat Application

- Built a full-stack chat application using React, Node.js, and Socket.io for real-time messaging.

- Deployed the application using Docker and Kubernetes for scalable cloud infrastructure.

E-commerce Website

- Designed and developed a responsive e-commerce platform using Django and React.

- Integrated payment gateways and implemented product search functionality.

Certifications

- AWS Certified Solutions Architect – Associate

- Google Cloud Professional Cloud Developer

Languages

- English (Fluent), Spanish (Conversational)
